*The Sports Injury Clinics are underwritten and financed by **SWSWF** and The Conrad Prebys Foundation. The Southwest Sports Wellness Foundation (**SWSWF**) was established in 2010 to fill a need in the under-served areas of the San Diego community by underwriting high school sports screenings, assessments, and evaluations. These various programs provide free high school sports injury clinics, access to educating physicians, physical therapists and certified athletic trainers, and provide curriculum for students with an interest in sports medicine and field of healthcare. **SWSWF** supports the specialized sports medicine injury assessment. Independent medical service providers assist in the evaluation and treatment plan for the injured student athletes. The goal is to return the athlete to sports safely and in a timely manner.
